

# Intelligent Accounts Payable Automation

for SAP S/4HANA

Transform Your AP Department with Intelligent Automation from IntelliChief

## REAL-TIME INTEGRATION WITH SAP S/4HANA

### ELIMINATE

Eliminate Manual Data Entry, Redundant Processes, and Late Fees

### EARN

Save with Early Pay Discounts

### GAIN

Gain Full Visibility into Your AP Process from Receipt to Voucher

### ACHIEVE

Achieve the Highest Level of Intelligent AP Automation for P.O. And Non-P.O. Invoices

Achieving the highest level of AP automation is about making your manual process hands- and stress-free. Receive, match, validate, GL code line-item details, and voucher P.O. invoices into your SAP S/4HANA system without human intervention. Focus only on the exceptions and handle in fewer clicks - say goodbye to manually entering data.

# IntelliChief + SAP S/4HANA = Higher Level of Automation

IntelliChief streamlines your invoice processing by using real-time integration with your SAP S/4HANA system. Our AP Automation solution automatically reads, matches or validates, routes, and vouchers your P.O. and Non-P.O. invoices with ease. With a **seamless integration**, IntelliChief automates your manual steps and processes, in real-time.

- ✓ Create vouchers in S/4HANA upon installation – **no custom development or programming in order to build the integration** is required
- ✓ **Validate invoice data and 2/3-way match** against your S/4HANA system in real-time
- ✓ Advanced Workflow algorithms process invoice data to ensure **valid, accurate information** is accepted successfully by S/4HANA
- ✓ Access to supplier invoices and related documents directly from your S/4HANA screens
- ✓ **Mobile access** allows non-S/4HANA users to route, approve, and GL code invoices from anywhere

# What Can IntelliChief Do for You?

IntelliChief delivers one of the most configurable and user-friendly AP Automation tools in the industry. With **SAP's recommended S/4HANA real-time integration**, IntelliChief achieves the highest level of automation for P.O. and Non-P.O. invoices.

- ✓ Straight-Through Processing – **hands-free processing** without manual intervention
- ✓ Manual Processing is **faster and easier** – process with less clicks and no manual calculations
- ✓ Industry-renowned implementation that uses an Agile Waterfall hybrid methodology for **maximum success rates** that combines input from the customer and best practices
- ✓ Management tools and in-depth metrics allow you to evaluate your AP department's productivity in **clear, easy-to-read dashboards**

## What Makes IntelliChief Different?

### CUSTOMIZABLE SOLUTIONS

We provide decades of experience to provide best practice consulting, guaranteeing to maximize your AP Automation investment.

### SAP S/4HANA INTEGRATION EXPERTISE

IntelliChief seamlessly integrates into the SAP-supported Enterprise Integration Platform for faster vouchering of AP Invoices. IntelliChief's Capture Enterprise and Workflow solutions are designed to validate supplier and invoicing data for straight-through processing, eliminating the need for human intervention, resulting in the highest level of intelligent automation.

### MOBILE ACCESS

Route, approve, and GL code invoices from anywhere without the need for additional S/4HANA licenses.

**Our capabilities don't end with Accounts Payable. IntelliChief's solutions** are designed to include other processes, like Order Management, Human Resources, Legal, Accounts Receivable, and more.
