

FOR IMMEDIATE RELEASE

## **SSON AP Automation Digital Summit Presentation:**

### **Driving High-Performance AP Automation with Governed AI: Why ERP Integration is the Key**

TAMPA, Fla. (March 2026) - IntelliChief is proud to present our session, Driving High-Performance AP Automation with Governed AI: Why ERP Integration is the Key, on March 11, 2026, at this year's [SSON AP Automation Digital Summit](#). Our session highlights how Governed AI with real-time [ERP integration](#) is transforming [AP automation](#) into a secure and highly scalable operation.

In this session, you'll learn how organizations are deploying AI to handle classification, extraction, matching, and coding while maintaining full control over accuracy, data governance, and auditability through these learning objectives:

- **The AI-ERP Connection:** Discover why high-performance extraction, validation, matching, GL-coding, and vouchering require your ERP to act as the "System of Record" to prevent "hallucinations" and data silos.
- **The 3 A's of Governed AI:** A practical look at how Accuracy, Auditability, and Accountability protect your AP workflow from fraud and ensure 100% compliance with your existing internal controls.
- **Scaling Without Headcount:** How to transition your team from manual data entry to higher value roles by automating 80% or more of your total invoice volume.

Interested professionals can watch the replay of this session [here](#).

#### **About IntelliChief**

IntelliChief provides a software platform for AI-enabled automation that integrates with enterprise-class ERP systems to eliminate administrative errors and streamline operations

for accounts payable, accounts receivable, sales order management, human resources and more. By robotically capturing, validating, entering and processing data directly into an ERP, IntelliChief enables companies to reengineer mission-critical business processes and reduce costs.
