

FOR IMMEDIATE RELEASE

## Quest Blueprint 4D 2026

HOUSTON, Tx. (May 2026) - IntelliChief announced details about their participation in the [2026 Blueprint 4D Conference](#). IntelliChief will be an exhibitor at the [Quest Blueprint 4D 2026](#) conference hosted by the Hilton Anatole in Dallas. IntelliChief will be located at booth 507. Check out their booth to fully understand the benefits of their [pre-built JDE integration](#) for business process automation.

They're also hosting a presentation, J.B. Poindexter's Playbook for High-Performance AP Automation in JDE, on May 5, 2026, at 2 PM EDT in the Monte Carlo room. In their session, [J.B. Poindexter](#) and [IntelliChief](#) reveals the blueprint for automating complex accounts payable environments within JD Edwards. This is what attendees will learn from J.B. Poindexter:

- Consolidated 8 different operational processes into a single, transparent workflow.
- Rescued stalled automation aspirations by prioritizing platform flexibility over "out-of-the-box" rigidity.
- Shifted their team's focus from manual data entry to high-value analytical research and supply chain optimization.
- Gained the audit tracking and visibility necessary to improve discount capture and process efficiency.

Anyone interested in setting up an on-site meeting with representatives during the conference are encouraged to contact IntelliChief using this [link](#).

### About IntelliChief

IntelliChief provides a software platform for AI-enabled automation that integrates with enterprise-class ERP systems to eliminate administrative errors and streamline operations

for accounts payable, accounts receivable, sales order management, human resources and more. By robotically capturing, validating, entering and processing data directly into an ERP, IntelliChief enables companies to reengineer mission-critical business processes and reduce costs.
